

CRE REDUCE CENTRE FOR RESEARCH EXCELLENCE
Redefining Antimicrobial Use To Reduce Resistance

INVITATION

CRE REDUCE LAUNCH

Featuring speakers from Australia and overseas

- Increasing burden of superbugs
- Infection challenges in transplant patients
- Challenges of anti fungal therapy in immunocompromised patients
- Role of inhaled antimicrobials in combating multi-resistant pathogens
- Antimicrobial dosing in difficult to treat patients
- Microsampling and antimicrobials

DATE: Friday 29 July 2016

VENUE: RBWH Education Centre,
Herston Campus

RSVP: **To Nermin Karamujic**
n.karamujic@uq.edu.au

CRE REDUCE MISSION:

Training world-leading researchers to
redefine antimicrobial use and tackle
antimicrobial resistance.
