

**CRE REDUCE** CENTRE OF RESEARCH EXCELLENCE  
Redefining Antimicrobial Use To Reduce Resistance

THE UNIVERSITY  
OF QUEENSLAND  
AUSTRALIA

THE UNIVERSITY  
of ADELAIDE

A domestic PhD scholarship is available for a motivated candidate to improve the optimisation of anti-infective medications in immunocompromised patients and those on prolonged treatment regimens.

The supervisory team are leaders in antimicrobial dosing, microbiology and infectious diseases - Dr Morgyn Warner, Professor Sandra Peake and Professor Jason Roberts. The project is primarily based at the Queen Elizabeth Hospital in Adelaide.
